Subject: Re: Extension of BRP Revision Online Survey Period

Your website will not accept my email address so here is the important part of my input;

1. Eliminate all harmful discharges and intakes in SM Bay (ASBS)
- 2.2 Reduce storm water pollution
3. Contaminates of Emerging Concern mentions flame retardants but that s/b emphasized.
4. Establish additional management controls should include the AB requiring a halibut FMP.
- 4.4 Create programs to develop aquaculture for seafood should specify halibut.
